

## VOICE TRAINING/SPEAKER ENROLLMENT COMMANDS

Here are some guidelines for reading the voice commands:

- Speak numbers one at a time correctly and naturally. For example, “1234” must be read as “one, two, three, four,” NOT “twelve, thirty-four.”
- “#” must be read as “pound.”
- “\*” must be read as “star.”
- Do not read parentheses, hyphens or commas. Parentheses and hyphens are used for separating numbers in a phone number. For example, “(888) 555-1212” must be spoken as “Eight, eight, eight, five, five, five, one, two, one, two.”

Command #	English	Command #	English
1	#790	23	Dial (987) 654-3210
